

1. PROFESSIONAL ACADEMIC TITLE AND DEGREE OBTAINED UPON COMPLETION OF STUDIES

Upon completion of the four-year studies of the first cycle of study (240 ECTS) in the study program: Classroom teaching, the academic title of **professor of classroom teaching** is obtained, and the degree of professional qualification: **VII/1**.

Upon completion of the second cycle of studies (60 ECTS) lasting one year, the academic title of **master of classroom teaching** and the degree of professional qualification: **VII/2** are obtained.

Upon completion of the third cycle of studies (180 ECTS) lasting three years, the academic title of **Doctor of Didactic-Methodical Sciences or Doctor of Humanities**, and the degree of professional education is obtained: **VIII**.

2. REQUIREMENTS FOR ENROLLMENT IN THE STUDY PROGRAM

The first cycle of studies:

- Completed four-year high school (IV degree), and passed the entrance exam for the first cycle of studies

The second cycle of studies:

- Completed the first cycle of studies, and my grade point average was over 8.00. If the student has a lower average, he does the Habilitation work in the field determined by the dean of the faculty, completed a four-year high school (IV degree), and passed the entrance exam for the first cycle of studies

The third cycle of studies:

- In the first year of the third study cycle, students who have:
 - a) *completed studies of the first and second cycles or integrated studies, determined by the study program of the third cycle of studies or,*
 - b) *an academic degree of a master's degree is determined by the study program of the third cycle of studies*
- Students who have completed the first year of study or lack 7 ECTS points, as well as students who have acquired 360 ECTS points in the first and second study cycles, can enroll in the second year of the third study cycle. If the first-year curriculum is not fully agreed upon, the student is obliged to pass the differential exams before the beginning of the academic year. The committee for doctoral studies evaluates study plans and programs and determines the number of differential exams.

3. LIST OF COMPULSORY AND ELECTIVE COURSES AND THE NUMBER OF HOURS REQUIRED FOR THEIR IMPLEMENTATION

Pogledati Tabelu 1, 2 i 3.

4. POINT VALUE OF EACH COURSE AND FINAL THESIS EXPRESSED IN ECTS POINTS

Pogledati tabelu 1, 2 i 3.

Total classes:					0	600	60
Total ESPB							180

5. REQUIREMENTS FOR TRANSFERRING FROM OTHER STUDY PROGRAMS WITHIN THE SAME OR RELATED STUDIES

Students transferring from another study program will be recognized for the number of certified semesters, a maximum of six, and the passed exams will be taken from those subjects whose content, according to their curriculum, overlaps at least 50% with the curriculum of the corresponding subject being studied at the University.

6. HOW TO CHOOSE SUBJECTS FROM OTHER STUDY PROGRAMS

Based on a written request, students can choose other teaching subjects that are not included in the subjects of their study programs, provided that the total workload of the student does not exceed 30 hours per week. He can choose only those subjects that are studied at the University.

7. CONDITIONS FOR ENROLLMENT IN THE NEXT SEMESTER, THAT IS, IN THE NEXT YEAR OF STUDIES AND METHOD OF COMPLETION OF STUDIES

Students enroll in the next semester of the same year on the condition that they pass more than half of the subjects of the previous semester, and if in the previous semester, there are subjects that include one part of the material, and in the second semester another part of the material, then they are obliged to pass the subjects from the second semester. Students enroll in the next year if they have passed all the exams of the previous year or if they have one course left, i.e. 6 ECTS points.

Students finish the first cycle of studies by defending the **final thesis**.

Students complete the second cycle of studies by taking the exams provided for in the curriculum and defending the **master's thesis**.

Students complete the third cycle of studies by taking the exams provided for in the curriculum and defending their **doctoral dissertation**.

8. METHOD OF PERFORMING STUDIES AND METHOD OF CHECKING KNOWLEDGE FOR EACH SUBJECT

The method of conducting studies in all cycles (I, II, and III) is carried out by semesters where students attend and actively participate in lectures and exercises, and the active fund of lectures and exercises is shown in Tables 1, 2, and 3.

The way of checking knowledge for each subject is continuously monitored during the teaching and processing of those subjects. When determining the final grade for the teaching subjects, i.e. the students' activity that is being evaluated, the evaluator is obliged to evaluate the results of the student's overall work during the processing of the teaching subjects, i.e. not only the knowledge and skills that students acquired and learned during the processing of teaching subjects but also the results achieved by students in all forms of educational and pedagogical work, which were planned and performed for teaching subjects, including the assessment of students' activities and interactions in lectures, exercises, colloquiums, seminars, workshops, round tables and other forms of teaching and pedagogical work.

The amount of the grade depends on the accumulated points, which are collected during the entire duration of lectures and exercises, as follows:

1. TEST 1 - first colloquium (first 50% of the material):	20 points	
2. TEST 2 - second colloquium (second 50% of the material):	20 points	
3. TEST 3 - final exam (total material):	20 points	
4. LECTURE - presence:	5 points	
5. LECTURE - active participation:	5 points	6.
EXERCISES - presence:	5 points	
7. EXERCISES – seminar work:	10 points	
8. EXERCISES - oral presentation of the second topic:	5 points	
9. EXERCISES - essay or case study:	10 points	

TOTAL : **100 bodova**

Grading of students is done by the number of points collected, as follows:

GRADES	GRADES	NUMBER OF POINTS	DESCRIPTIVE GRADES
F	5	0-54	Not enough
E	6	55-64	Enough
D	7	65-75	Good
C	8	75-84	Very good
B	9	85-94	Excellent
A	10	95-100	Exceptional-excellent

The exams are successfully passed, written or oral, and written, that is, practical.

If it is foreseen in the Curriculum, due to the specificity of the subject, knowledge verification is organized in several partial tests during the processing of the subject. In that case, the student's final grade is formed based on the results of all partial tests and other knowledge tests, i.e. points collected.

9. OTHER ISSUES OF SIGNIFICANCE FOR IMPLEMENTATION OF THE STUDY PROGRAM

The curriculum also defines the exercise category (KV). Exercise categories will be marked with a number from 1-5, namely:

ON.	Type - a structure of exercises	Number of students
1.	For art academies on art subjects.	3
2.	For clinical teaching subjects at faculties/high schools of medical sciences, certain teaching subjects at faculties of technical sciences, professional subjects at art academies, and teaching methodology subjects at faculties/high schools of humanities and social sciences.	5
3.	For pre-clinical subjects of medical sciences (dissection-autopsy exercises; anatomy, pathology, forensic medicine): subjects with field exercises that require supervision of the student and instructions of a professional associate.	10
4.	For teaching subjects with laboratory and experimental exercises.	15
5.	For teaching subjects with classroom and field exercises.	25
